

FULL VIEW CAMERA TECHNOLOGY™

BY ROSCO® VISION SYSTEMS

PURPOSE-BUILT SCHOOL BUS CAMERA SYSTEMS – CUSTOMIZABLE ON IC BUS® CE SERIES AND RE SERIES BUSES

DESIGNED TO ENHANCE THE DRIVER'S VIEW AROUND THE BUS

IC Bus® is proud to offer the industry's first camera system designed specifically for school buses. Combined with the side mirrors, this advanced system will allow bus drivers to have a "full view" around the bus so they can concentrate on driving and keeping kids safe.

No school bus vision safety technology replaces a skilled, alert driver exercising safe driving techniques and proactive, comprehensive driver training. Responsibility for the safe operation of the vehicle remains with the driver at all times.

FULL VIEW CAMERA FEATURES

- ▶ Co-developed with Rosco® Vision Systems, IC Bus® designed the industry's first purpose-built camera for a school bus application
- ▶ Provides drivers views based on the situation at hand, such as backing up, opening the door, or a view to the side or front of the bus
- ▶ This purpose-built camera technology is designed to not overload the driver with too much information, but instead provide them with the right information at the right time
- ▶ Gives the driver a greater feeling of security and peace-of-mind with the combination of the full view camera technology and driver mirrors
- ▶ Provides accurate visibility to the areas that matter most around the bus

SCHOOL BUS MIRRORS AND CAMERAS CAPTURE CRUCIAL IMAGES

The IC Bus® Full View Camera Technology™ by Rosco® is now available for customers to order for CE and RE Series buses.

This advanced equipment helps reduce blind spots around the school bus and provides the driver with danger zone views based on any driving scenario. Customers can choose from several options for the monitor, such as having it integrated in the rearview mirror or positioned as a separate, free-standing monitor.

AUGMENTS EXISTING SAFETY FEATURES

AVOIDS INFORMATION OVERLOAD WITH A FOCUSED INTUITIVE APPROACH

ALLOWS DRIVERS TO HAVE A "FULL VIEW" WHEN COMBINED WITH SIDE MIRRORS

Front View

Side View

Rear View

The Full View Camera System displays the most appropriate view based on the situation at hand, including backing up, opening the door, or the view of the front, side or rear of the bus.
